**Black Sheep Handspinners Guild Newsletter**

**July/August 2008**

President:  **Celia Radke**, 749-2711  
Vice President:  **Sharon Gombas**, 533-7390  
Treasurer:  **Ellie May**, 272-8224  
Librarian:  **Jim Johnson**, 564-7178  
Newsletter Editor:  **Anne Furman**, 387-4141

http://www.blacksheephandspinnersguild.org

The Black Sheep meet from 11am-3pm on the second Saturday of the month at the Varna Community Center  
Route 366 in Varna, New York. Exceptions are the months of December, June, July, and August  
when we meet in member’s homes.

---

**July 12 from 11 AM to 3 PM**

July 12th will be at Wayne Harbert’s house at  
107 Burdge Hill Road in Newfield.

To get there from the North/ East  go south out of  
Ithaca on Route 13, past Lower Treman Park,  
Eddydale and the former Turbacks. Stay on 13 past  
the intersection with 34/96, and go up the hill for  
another mile past that intersection. Turn right on  
Millard Hill Road—the first right after the 34/96  
intersection. Landstrom Gravel Company is at the  
base of the hill just before Millard Hill Road. (Millard  
Hill Road is the paved road that goes straight up the  
hill—not the dirt road off to the right.) Go up Millard Hill  
Road for a mile, and turn on Burdge Hill Road, the first  
left off Millard Hill Road. Go up Burdge Hill Road for  
another 1.1 miles or so. It's uphill all the way. If you  
find yourself going downhill again you have probably  
passed us. 107 Burdge Hill Road is on the left side of  
the road—the one with the long driveway.

To get there from the South/ West  go north on Route  
13 past Newfield, heading toward Ithaca. Pass the  
Route 13/ Trumbulls Corners Road intersection which  
is the main point of entry to Newfield. (Zippy's car  
wash is just before that intersection.) Continue north  
on Route 13 for just under a mile. You will pass Protts  
Hill Road on the left. Burdge Hill Road is the next  
one. It a steep road intersecting Route 13 on the left.  
Turn left on Burdge Hill Road and go up the hill for  
about half a mile. It's uphill all the way. If you find  
yourself going downhill again you have probably  
passed us. 107 Burdge Hill Road is at the first long  
driveway on the right hand side.

The street number at the top of our long driveway. Our  
phone number is 564-9328, in case you get lost.

---

**August 9 from 11 AM to 3 PM**

August 9th will be at Farm City Day held this year  
at Angel Tree Alpaca Farm. 554 Scofield Road  
Groton, New York 608 533 3608

The organizer, Debbie Teeter, has ordered a tent,  
chairs, and tables for our use. Bring examples of  
your spinning or other fiber displays you have for  
visitors. Expect to talk with visitors more than with  
each other. We are a gabby lot, and this is a good  
opportunity for outreach from the guild.

Driving directions can be found on their web site:  
http://www.angeltreefarm.com/.

From Ithaca turn left to go north on route 34 or North  
Triphammer Road. Turn right when it intersects route  
34B/Peruville Road. Turn left into Scofield Road.

From Cortland take route 222 and bear left at West  
Road, route 281, go 1.2 miles. Turn right on County  
Road 120, McLean Road and continue to County  
Road 107, Peruville Road. Go 4.8 miles and turn  
right on Scofield Road.

RECEIVING DAYS -  
(9:00 a.m. - 4:00 p.m.)  
(Thursday, Friday & Saturday)

**AUGUST 8**  
MAIL IN ARTICLES ARE DUE  
(Friday)
Ontario Handspinning Seminar, June 2008 from Jean Currie

Ellie May, Anne Furman, and I set off for Barrie, Ontario on a hot Friday morning for the OHS held at Georgian College, Barrie, Ont. On the way, we stopped for lunch in the Niagara Park near the General Brock monument. We must have passed this massive stone edifice a zillion times but never noticed it before! Major General Sir Isaac Brock was Governor of Upper Canada and in the War of 1812 died while defending the Canadian borders from invading Americans. After the best quiche ever and a great view of the Niagara River, we set off on yet another highway in the 400 series of Ontario, or is it in the whole of Canada?

After a short rest on arrival in Barrie, we spent some money in the Seminar Sales Room on alpaca - at varying times and unknown to each other, we each bought the same thing in pink (Ellie), Mauve (Anne), and green (Jean). I also was intrigued with a kit of Habu yarns that included viscose/paper/linen and silk wrapped stainless steel. We needed Canadian money, gas, and food in that order so took a trip to the closest beach front of Barrie which was having a noisy Friday night out on a very hot evening!

The introductory seminar program was an interesting video called Basho to Stainless Steel on Japanese spinning and weaving. It began with very intensive handwork in somewhat primitive conditions producing wonderful plant fibre fabrics from a national treasure spinner and weaver through more modern techniques using silk and cotton, and on to very fine metal yarns (stainless steel, copper, gold etc.) for weaving or knitting (see stainless above). BTW, Basho is a tree-like plant related to the banana.

We each went to a different workshop for the rest of the day. I attended Work Less – Get More with Dorothy Hinchcliffe. It was a great mélange of topics that gave a mix of novice and expert spinners lots of great tips and tricks. We learned how to measure the yarn needed and how to measure a potential project after you have already spun it the yarn - as I never have a project in mind, this was great for me! We learned how to deal with various disasters including unspinning a bad yarn – actually practicing this was a great exercise. We learned that you should get rid of fibre, yarn, or a project that is not retrievable:

    Give me the serenity to throw out fibre that is beyond redemption,
    The courage to say NO to an idea.
    And the wisdom to know my limits!

We learned that is it just fine to spin and knit singles but you must block well using a circular blocker (like a warping reel). Wind the skein on it, then wash the skein, then put the skein back on the blocker to dry. We learned how to recycle bits, thrums, balls of yarn, garments, etc. by cutting them up, carding a little or a lot, and then respinning. What great stuff will come from these combinations. We learned that you should do an inventory of your stash annually, store it properly and label everything, and then use it up. Having the largest stash when you die does not make you the best – just leaves a mess for someone else to deal with! We learned in casual conversation that putting cut up lemons in the path of ants will make them go away!

By the evening we had found a corkscrew, so we had some Finger Lakes wine, enjoyed a banquet, and then a fashion show of work done during the past year. There were many lovely, lacy scarves and shawls, a beautiful cabled man’s sweater by a novice spinner, and several interestingly designed jackets.

The final program on Sunday was a show and tell about a fibre related trip to Thailand by several of the Ontario spinners – they had visited several villages and fair trade places to investigate and practice spinning and weaving cotton and silk on equipment that is very different from ours. These very expert
Canadian spinners and weavers had great trouble but got lots of help and laughter from the patient villagers. Then the awards with our own Linda Helms doing well as usual.

Handy hint: Going to Canada on Friday afternoon and returning to the US on Sunday evening are the right times to cross the border – the lines are very short. If you do the reverse, then plan to be in lines of hundreds of cars each!! Next year’s seminar will be in Kingston and we are planning it already!!

Ever wonder what an exceptional hand made sweater costs?

This sweater was in the window of Three Bags Full in their San Francisco store. Probably knit on #4 needles. It had a price tag of $495. To see other exquisite original hand made sweaters from them go to:

Upcoming

Guild meetings
July 12th at Wayne Harbert’s home

August 9th at Farm City Day
Angel Tree Alpaca Farm

Quilt and Fiber Art Festival
July 12 and 13, 10-5
Highbanks Recreation Area
Mt. Morris entrance of Letchworth State Park
fabric, fiber, yarn, fiber animals, demos, quilt show, food

Troy Fair
Wool Day, July 23
Troy, PA
http://troyfair.com

New York State Fair
August 21 to September 1, 2008
Syracuse, NY
http://www.nysfair.org/fair

Vermont Sheep and Wool Festival
September 6 & 7, 2008
Champlain Valley Expo, Essex Jct., VT
http://www.vermontsheep.org/festival.html

Finger Lakes Fiber Arts and Crafts Festival
September 20 & 21
Hemlock Fairgrounds, Hemlock, NY
http://www.gvhg.org/fest.html

Fiber Fallout
Johsonburg, NJ
September 26th to 28th, 2008
